The 10th Annual Moving Message

Saturday, September 14th, 2019

A Communication Disorders Awareness & Fundraising Walk

Sponsored by the Support Groups for Individuals with Neurogenic Communication Impairment at The College of Saint Rose

The goal of this annual walk is to **raise awareness** about the communication difficulties that arise after stroke, brain injury, or other neurological change. Our mission is to reduce the stigma associated with trouble communicating, **support** those who are having difficulty, educate people about how to successfully interact, and to **celebrate** our progress.

We encourage you to interact with the individuals in the groups to learn more about traumatic brain injury and stroke. The walk will take place on the campus green where five laps equal a mile. You can **walk, run, wheel**...there are no limits. Come for the day or for an hour. There will be food, helpful information, a raffle, and a community of support. All donations raised will go to support the **Moving Message fund**. The fund is used to support individuals who need ongoing speech therapy and/or communication devices and need financial support in order to make this happen.

The Moving Message

The walk will be held on The Campus Green at The College of Saint Rose. The Campus Green is located between Saint Joseph Hall and the Campus Center.
